

Macintosh Users: Outlook Express Setup

Open Outlook Express

In the Menu Bar, go to Edit, then Select Preferences.

With "Email" highlighted in the top portion of the left hand window, enter the following settings.

Account Information

Full Name: Enter your full name

Email address: Enter your Email address

Organization: (optional)

Sending Mail

SMTP server: smtp.rockisland.com

Receiving Mail

Account ID: Enter your username

POP Server: pop3.rockisland.com

Save Password: If you would like the program to save your password, check the box and enter your password.

Account name: You can use the default or enter a name for this configuration set.

Example: If you have more than one account set up, one could be "Jennie's mail", another could be "Pete's mail", etc.

Click OK, and you're done!
